### Profile

Hi! My name is Abu Zaid. I am a Web Developer, and I'm very passionate and dedicated to my work., I bring a strong foundation in HTML, CSS, and JavaScript. Eager to contribute to impactful projects, I showcase my skills and potential through innovative designs, responsive layouts, and a commitment to continuous learning. Let's collaborate and create exceptional user experiences together.

### Technical Summary

- I made all my project Responsive it means my websites layout is fit to all screen size PCs and Mobiles.
- In my project i used HTML, HTML5 according to my layout, all the structure things are made with help of HTML.
- I used CSS and CSS3 to make attractive my projects and all my project are responsive just because of CSS.
- To make interactive all my project i used JavaScript and also in small screen with help of JavaScript i made hamburger to toggle nav-links.
- I also use some libraries like JQuery to use some inbuild functions.
